

link my ride.

Quick Start Guide For Community Bike Ride Leaders.

Who are Link My Ride?

Our App empowers cyclists of all abilities to find and connect with local activities all over the world, and to effortlessly plan and organise events together.

How does it work?

We make ride planning easy by taking the hassle out of organising. Creating and sharing a ride in the app takes just a few seconds, allowing thousands of local cyclists to discover it.

Participants will discover you through the Explore feature. You can also follow and see who follows you, message within the App, and much, much more.

Sign ups and coordination are taken care of, leaving you free to engage with those attending and doing what you do best; riding!

What do I need to do to get started?

-  Download the Link My Ride App
-  Create an account
-  Add “CBR Cycling Ireland” to the end of your display name.
-  **Download** the CBR logo here. Upload this to Link My Ride as your profile photo.
-  Include “CBR Cycling Ireland” in the title of events you create
-  Sign up to attend our onboarding webinar. Details to follow.
-  Start using the app and create your first ride!
